High Volume Open Fryers

OFE 291 Electric

OFE 291 high volume electric open fryer

Henny Penny high volume open fryers offer tremendous throughput in a highly reliable frying platform with programmable operation, oil functions and fast, easy filtration.

The Henny Penny OFE 291 cooks up to 8 head of freshly breaded bone-in chicken in a single load. For higher volume operations, that can mean significant savings in time, labor, frying oil, energy and maintenance compared to an equivalent capacity of smaller fryers from other manufacturers.

Henny Penny high volume electric open fryers combine power with high-efficiency immersed elements to recover temperature very quickly. Fast recovery translates into higher throughput, lower energy costs and longer frying oil life. Large loads are cooked evenly and handled easily

with the patented counter-balance lift system.

Henny Penny open fryers have a built-in filtration system that filters and returns hot frying oil in minutes. No separate pumps and pans, no handling hot oil. Frequent filtering extends frying oil life, improves product quality and reduces oil costs.

The Computron™ 8000 control features automatic, programmable operation, as well as energy-saving, filtration and cook management functions.
